DETAIL ACTION

1. Application's election without traverse of Group I (Claims 1-12) drawn to a semiconductor device is acknowledged for prosecution in the subject application.

Accordingly, claims 13-20 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Applicants have the right to file a divisional application covering the subject matter of the non-elected claims.

2. This application is in condition for allowance except for the following formal matters:

- The specification is objected to for the following reasons.

A new abstract is required that is clearly indicative the invention to which the claims are directed. Note that, the claims are directed to semiconductor device not a method of making a semiconductor device.

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

- Claim Objections

Claim 1 and 7 are objected to because of the following reasons.

In claim 1, line 2, and claim 7, line 16, "A image sensor" should be changed to "An image sensor". Correction is required.

3. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
